1 Objectives

Welcome to the first Natural Language Processing lab! 🙌🤓🌟

Today’s objectives are:

1. 🔎 **Explore** a research question together based on your text data!
2. 💡 Make the **concepts** from Session 1 more tangible: NLP pipeline, choices affecting information loss, text representations.
3. 🛠️ Provide guidance for Python **environment setup** in Appendix Section 8.

Menti Q&A

Your thoughts!
